

**FP2020  
2015-2016 PROGRESS REPORT**

**INDICATOR NO. 13  
ESTIMATE TABLE**

**DEFINITION:**

The estimated protection provided by family planning services during a one year period, based upon the volume of all contraceptives sold or distributed free of charge to clients during that period; the CYP is calculated by multiplying the quantity of each method distributed to clients by a conversion factor, which yields an estimate of the duration of contraceptive protection provided per unit of that method.

**SOURCE:**

Calculated from Logistics Management Information Systems (LMIS) or other service statistics sources.
